**Amendments to the Specification:**

Please replace paragraph [0004] with the following amended paragraph:

[0004] Many clock designers, such as in U.S. Pat. No. 2,153,004, by C. H. H. Rodanet, issued April 4, 1939, seek to achieve aesthetic distinction by altering the symbols used on the clock face and/or by designing uniquely shaped hands. That clock ~~was also~~ featured ~~attached the~~ hands attached to ~~onto~~ rotating disks to give the appearance that the hands were floating.
